Cookies

The Services use "cookies" to help personalize your online experience. A cookie is a text file that is placed on your hard disk by a web page server. Cookies cannot be used to run programs or deliver viruses to your computer. Cookies are uniquely assigned to you and can only be read by a web server in the domain that issued the cookie to you.

We may use cookies to collect, store, and track information for statistical purposes to operate the Services. You have the ability to accept or decline cookies. Most web browsers automatically accept

cookies, but you can usually modify your browser setting to decline cookies if you prefer. If you choose to decline cookies, you will not be able to use and experience the features of the Services.

Do Not Track signals

Some browsers incorporate a Do Not Track feature that signals to websites you visit that you do not want to have your online activity tracked. Tracking is not the same as using or collecting information in connection with a website. For these purposes, tracking refers to collecting personally identifiable information from consumers who use or visit a website or online service as they move across different websites over time. How browsers communicate the Do Not Track signal is not yet uniform. As a result, the Services are not yet set up to interpret or respond to Do Not Track signals communicated by your browser. Even so, as described in more detail throughout this Policy, we limit our use and collection of your personal information.

Information security

We secure information you provide on computer servers in a controlled, secure environment, protected from unauthorized access, use, or disclosure. We maintain reasonable administrative, technical, and physical safeguards in an effort to protect against unauthorized access, use, modification, and disclosure of Personal Information in its control and custody. However, no data transmission over the Internet or wireless network can be guaranteed. Therefore, while we strive to protect your Personal Information, you acknowledge that (i) there are security and privacy limitations of the internet which are beyond our control; (ii) the security, integrity, and privacy of any and all information and data exchanged between you and the Services cannot be guaranteed; and (iii) any such information and data may be viewed or tampered with in transit by a third party, despite best efforts.

We keep your data secure by employing a 100% encrypted end-to-end channel for all data transferred into and out of our systems. Our platform is built on Amazon Web Services (AWS) and we follow industry best-practices for keeping your data safe:

For CCC ONE customers, the data we are sent via CCC's Secure Share platform arrives over an HTTPS encrypted channel.

For Nexsysis customers, the data we are sent via Nexsysis' platform arrives over an HTTPS encrypted channel.

For Mitchell RepairCenter customers, we employ the same secure methods when exchanging data between our systems and those of Mitchell International.

For Mitchell Ultramate and Mitchell Connect customers using our EMS Sync Agent (Data Pump), you can rest assured that this data is also transmitted to our servers over secure channels.

Once inside our private network, access to the data is always protected via secure means (SSH and SSL).

While using our mobile app, your data is sent to and from authorized mobile devices using HTTPS encrypted channels.

including, but not limited to, investigation and reporting, as well as notification to and cooperation with law enforcement authorities. In the event of a data breach, we will make reasonable efforts to notify affected individuals if we believe that there is a reasonable risk of harm to the user as a result of the breach or if notice is otherwise required by law. When we do, we will send you an email.

Changes and amendments

We reserve the right to modify this Policy or its terms relating to the Services from time to time in our discretion and will notify you of any material changes to the way in which we treat Personal Information.
